Hybrid Chile Pepper Jalapeño

Green Festa

DESCRIPTION:

Green Festa sizes at 4.75 inches in length, is uniform medium-glossy green with nice taper and smooth skin. It shows good shelf life, good weight and can range from 1,140 to 1,300 in Scoville heat units. High resistance to Bacterial leaf spot R 1,2,3.

MATURITY:

Medium-late

CULTURAL CHARACTERISTICS:

This variety shows good adaptability with a vigorous plant habit. The plant canopy protects fruit from sun scald and branch habit holds strong against heavy wind conditions. The fruit set is concentrated resulting in high yields.

FEATURES

- Excellent fruit set, uniform sizing
- Uniform medium glossy green skin
- Resistant to bacterial leaf spot (R 1,2,3)
- Vigorous plant architecture

BENEFITS

- High yields, nice presentation
- Desirable consumer characteristics
- Adapted to rainy season conditions
- Adapted to environmental stress factors – heat, wind

Descriptions, illustrations, photos and disease resistance, etc. are based upon the results obtained under favorable conditions and certain races of pathogens/diseases. Identical results are not guaranteed nor implied for all growing conditions. Information is based on average data compiled. Physical characteristics, adaptability and disease tolerance may vary under different conditions. Rev A
