

Petunia F1 Trilogy

Trilogy Red Gen 2 has upright blooms of vibrant red. It shares the same compact, mounded plant habit as the rest of the Trilogy series.

Trilogy provides benefits for growers, retailers and consumers. Plants can be grown “pot tight” due to short internodes, and there is less shrinkage at retail due to broken branches and damaged plants. Trilogy flowers heavily throughout the season and its compact, spreading habit works equally as well in gardens, containers and baskets.

Trilogy Purple Gen 2 is another next generation Trilogy variety new for 2024. A richer color combined with its excellent plant habit make this a winning improvement.

2024 New Varieties

Dahlia Black Forest Ruby

Black Forest Ruby has dramatic dark foliage surrounded by flowers that have intense shades of red. From seed, Black Forest Ruby has an upright plant habit perfect for containers and gardens. Semi-double to double flowers provide a contrast to the dark stems and leaves.

More colors coming!

Tropaeolum (Nasturtium) Baby Red

Baby Red is the newest addition to the Baby series, joining its siblings Orange and Rose. The series features a non-trailing habit, plants are 10 to 12 inches (25 to 30.5 cm) in height with a mounded shape.

Baby Red is a Fleuroselect Novelty winner, Baby Orange is also a Fleuroselect Novelty winner and Baby Rose has earned an AAS Regional award, and both a Fleuroselect Gold Medal and Novelty award.
